November 2007

Dear Friends at East Coast Classic Cars Association,

On behalf of Chrissy and Friends I want to thank you personally for your generous donation.

As President of Chrissy & Friends, I would like to tell you about my daughter Christine. Chrissy was a vibrant, beautiful child who suffered with severe epilepsy. Although Chrissy suffered from an extremely debilitating form of epilepsy it never stopped her from living her life. Chrissy was always smiling and cheerful. It was that upbeat and positive attitude that inspired the creation of Chrissy & Friends. On August 28, 2003, Chrissy lost her battle with epilepsy. While her passing has devastated my family and friends, it has rekindled our desire to succeed in finding a cure and helping those and their families who suffer with epilepsy.

Chrissy & Friends is a not for profit organization established to meet the needs of people with epilepsy. Our mission at Chrissy & Friends is to offer support, recreation, education and most importantly, a place to socialize and have fun for all ages. Our goal is to expand and reach out to every child and adult with epilepsy.

Please know that your tax deductible donation will directly help in aiding those who struggle with this debilitating disease.

On behalf of our children and adults with epilepsy, thank you!

Very Truly Yours,

RoseAnne DeRenzo
President

THE MISSION OF CHRISSEY & FRIENDS is to offer support, recreation, education, and most importantly a place to socialize and have fun for people with epilepsy.
